MALIKI
EPIC ADVENTURE DRUMS

End User License Agreement

DISCLAIMER
THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

EpicSoundLab.com is a sound marketplace owned by 'Progsounds di Luca Capozzi', furtherly mentioned as 'Progsounds'. This license agreement is applied on both Progsounds.com and EpicSoundLab.com products and services. By installing any Progsounds product you accept the following product license agreement:

1. License Grant:

The license for this product is granted only to a single user. All sounds and samples in this product are licensed, but not sold, to you by Progsounds di Luca Capozzi for commercial and non-commercial use in music, sound-effect, audio/video post-production, performance, broadcast or similar finished content-creation and production use. Progsounds allows you to use any of the sounds and samples in the library(s) you've purchased for commercial recordings without paying any additional license fees or providing source attribution to Progsounds. This license expressly forbids any unauthorized inclusion of content contained within this library, or any other Progsounds library, into any other sampled instrument or library of any kind, without our express written consent.

This license allows the use of the software and its samples for musical scores, trailers, library and production music as long as the software and its samples are used in a musical context. The use of the samples as sound effects is allowed for musical context, films and games.

This license also forbids the use of the software and its samples for the creation of new sample libraries, including but not limited to re-sampling, mixing, processing, isolating, or embedding into software or hardware of any kind.
Licenses cannot be transferred to another entity, without written consent of Progsounds di Luca Capozzi.

2. Rights:

Progsounds retains full copyright privileges and complete ownership of all recorded sounds, instrument programming, documentation and musical performances included in this product.

3. Refunds:

Downloaded libraries, patches and sounds can't be returned, so Progsounds can't provide refunds. Progsounds may choose to do so at its own discretion, but please be aware that as soon as you've downloaded it, you can't return it.

4. Responsibility:

Using this product and any supplied software is at the licensee's own risk. Progsounds holds no responsibility for any direct or indirect loss arising from any form of use of this product.

5. Terms:

This license agreement is effective from the moment the product is installed by any means. The license will remain in full effect until termination. The license is terminated if you break any of the terms or conditions of this agreement, or request a refund for any reason. Upon termination you agree to destroy all copies and contents of the product at your own expense.

6. Violation:

We don't use any form of DRM software, registration, license keys or other anti-piracy technology. That's also one of the reasons our prices are so low, even though it takes a long time to make these sounds. If you've done any sampling and the labor-intensive programming that comes with it, you know that it is very hard work. Remember, the more you support us, the more awesome libraries we can afford to make for you.

7. Free releases:

All Progsounds libraries and sounds are subject to the license agreement specified above (1-6). All Progsounds free releases are subject to the same license agreement unless specified otherwise.

Maliki – Epic Adventure Drums

produced by Epic SoundLab, July 2015.

Maliki is a collection of epic drum loops arranged in 20 themes, arranged by a selection of 4 acoustic and hybrid drum instruments from The Forge. Each theme is made up of 10 sections, where each section grows as a part of a music composition. Within each theme you can play the full mix or the single stems, while placing each stem in a virtual stage and recall you mixes with 10 preset keyswitches.
Furthermore, Maliki comes with a collection of over 600 MIDI files and the single drum instruments to let you write your own drum tracks.

Credits

Concept, editing, programming and scripting by Luca Capozzi
Drum loops programming by Maliki Ramia
Custom graphic user interface design by Luca Capozzi
Published under Epic SoundLab brand by Progsounds by Luca Capozzi

Specifications

- 20 Themes
- 10 Parts per theme
- 4 Acoustic and Hybrid Drums (powered by The Forge Lite)
- Virtual Stage
- Mix Recall
- 1600 WAV Loops
- 660 MIDI Files
- 6.2GB of disk space required

Note: Full version of Native Instruments Kontakt 5.4.3+ is required. Free Kontakt Player is not supported.

Installation

Uncompress the downloaded .rar file in your favourite Sample Libraries folder. Kontakt patches are stored in Instruments folder. Please, remember to keep both files and folder structures or Kontakt will pop-up an error message asking for missing files. In that case, all samples are stored into Samples folder.

If you don't have any program to handle .rar archives, here's a couple of links:
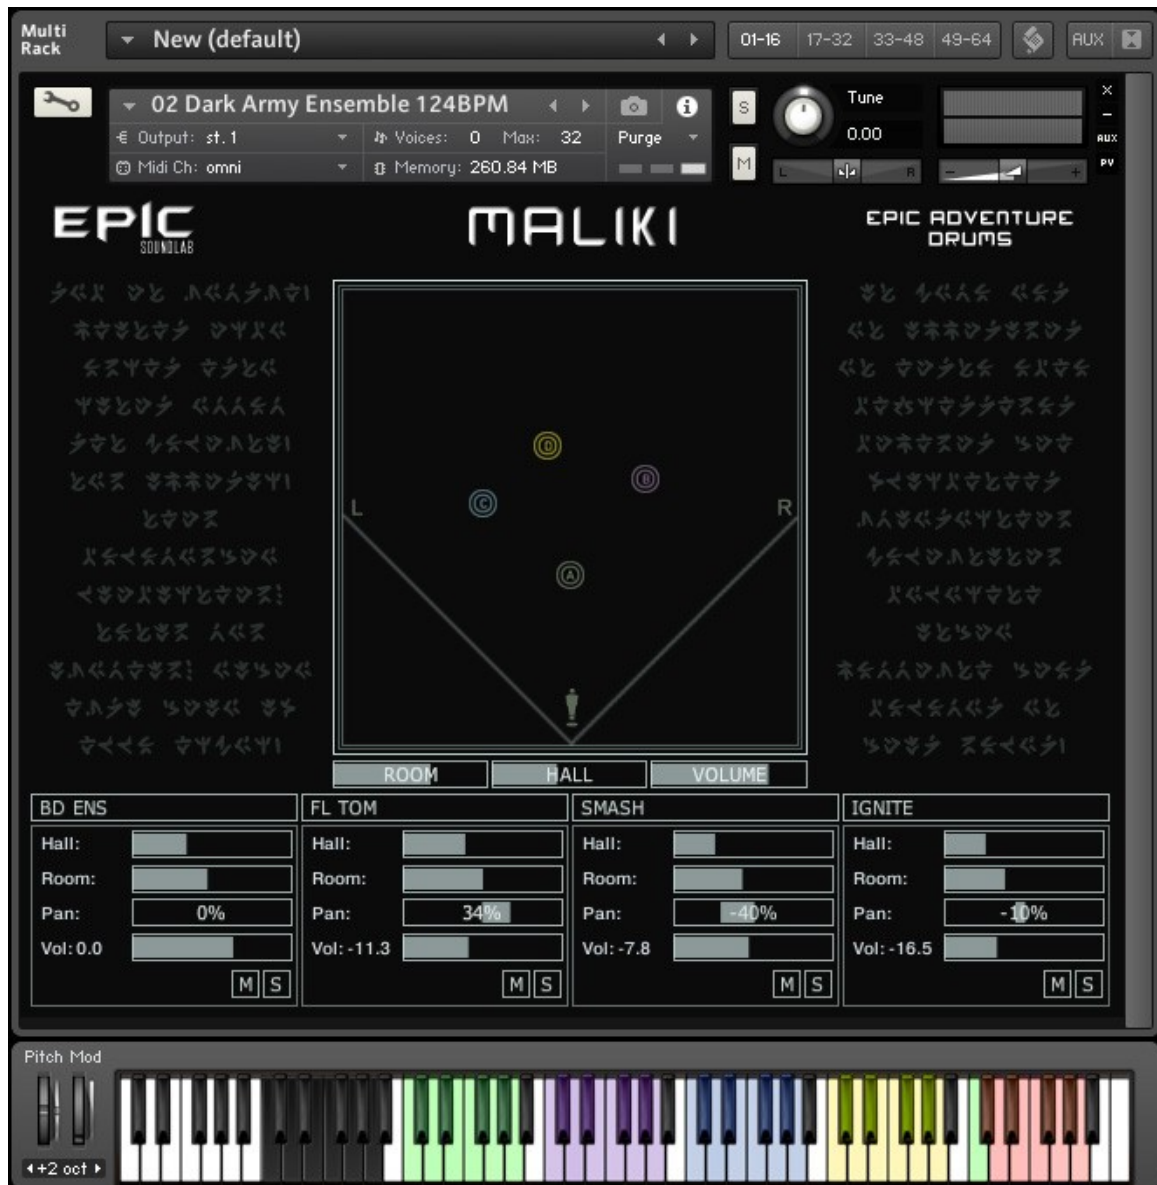

[WinRAR for Microsoft Windows](#)

[UnRarX for Mac OSX](#)

You need **FULL** version of Kontakt 5.1 or higher in order to properly load this library. Kontakt Player is **not supported**.

You can use the Files or Database tabs to load our .nki files. Since this is a standard open-format library, you cannot load it under Library tab of Kontakt browser. This section will only load locked "Powered by Kontakt" libraries and the "Add Library" command will not work with this product.
We recommend that you have at least 2GB of RAM, a dual-core CPU and a fast hard drive (7200rpm SATA II or higher) before purchasing this or any sampled Epic SoundLab product.

USER INTERFACE

Maliki user interface is built to give you full access to all the features of the library in a single screen. The core function of Maliki is to speed up the creation of epic/hybrid scores by using a collection of 20 themes, arranged by a selection of 4 acoustic and hybrid drum instruments from The Forge. Each theme is made up of 10 sections, where each section grows as a part of a music composition. Within each theme you can play the full mix or the single stems, while placing each stem in a virtual stage and recall you mixes with 10 preset key-switches. Furthermore, Maliki comes with a collection of over 600 MIDI files and the single drum instruments to let you write your own drum tracks.
VIRTUAL STAGE

The **Virtual Stage** shows the current position of each of the four drums. The "listener" is placed at the bottom center of the stage. Here you can also control the global Volume, Room and Hall return levels.

DRUM CHANNELS

Here you can mix each of the four drums in the virtual space. For each drum you can control the **Volume**, the **Pan** position, **Room** and **Hall** send levels, **Mute** and **Solo**.

KEYBOARD LAYOUT

The keyboard layout is pretty straightforward.

C1 - A1 (Black):   Full Mix
C2 - A2 (Green):   Bass Drums Ensemble
C3 - A3 (Violet):   Floor Tom
C4 - A4 (Blue):   Big Smash
C5 - A5 (Yellow):   Ignite
C6 - A6 (Red):   Mix Recall

The Mix Recall section saves the current mix you have on the Drum Channels and can be used to have different templates of the same theme. When you first load one of the instruments, all 8 presets are inizialized. To save your own settings, select one of the eight keys and only then do your new mix. Remember to save the NKI file, or your changes will be lost.

SINGLE INSTRUMENTS

In the library you'll find all four individual instruments used for the creation of the looped content, powered by **The Forge Lite** (a stripped down version of our best seller workstation).

Bass Drums Ens KIT
An ensemble of 9 different acoustic bass drums hit with different mallets and positions.

Big Smash
A synthetic drum created with a vintage analog synthesizer and a 31 band equalizer.

Floor Tom
A deep and long tailed acoustic floor tom drum.

Ignite Drum Ens
An hybrid drum ensemble created by stacking several recordings of thunders and fireworks.

Thank You

We wanna thank you for buying **Epic SoundLab Maliki** sample library.

We hope you will enjoy it as much as we did.

If you have any question, concerns, technical issues or even for just say 'Hello', get in touch with us at:
